RCS – Specialized Prosecutor Indicator SR 90383

A Specialized Prosecution Indicator has been added RCS. If a file in PRISM is marked as being a Special Prosecution file that information will be pushed from PRISM to RCS upon doing a Search of a File/Docket number in RCS, just like the Federal file indicator. This indicator will not appear for a full docket list searches or name searches in RCS only when doing a Search by file/docket number. Results screen below show how this indicator will appear in RCS on the search and on the confirmation screens.

The screenshot shows the 'File Search' interface in the Alberta Courts system. The search criteria include:

- Last Name: []
- First Name: []
- Court Location: < Select an item >
- Police File Number: []
- Courtroom: < Select an item >
- Charge(s): []
- Search Purpose: [Scheduling]
- Date of Birth: YYYYMMDD
- Offence Date: YYYYMMDD
- Start Time: < Select an item >
- Next Appearance Date: YYYYMMDD
- Or Docket Numbers: 170008965P1

The search results table shows one result:

SR 132119 – RCS: Allowing users to book when election not made (Hybrid)

Issues were reported by various court locations, where remote bookings were being successfully completed that had no Crown Election (hybrid). Changes to the RCS system will stop these types of bookings from being completely successfully as per business rules.

BEFORE – Application will allow the user to complete a full booking.
